

LEGO 12 lépéses Puzzle box

M

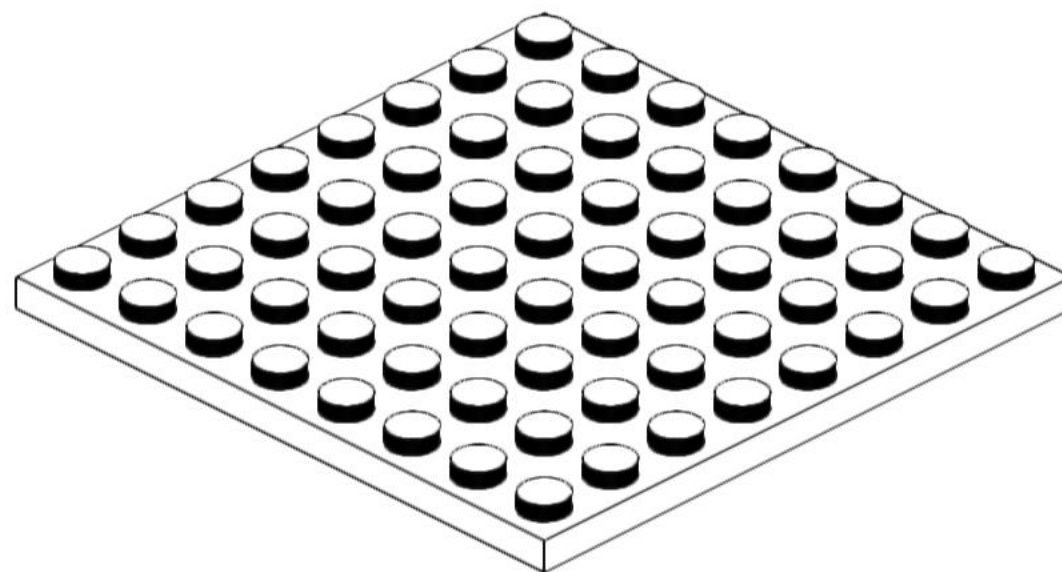

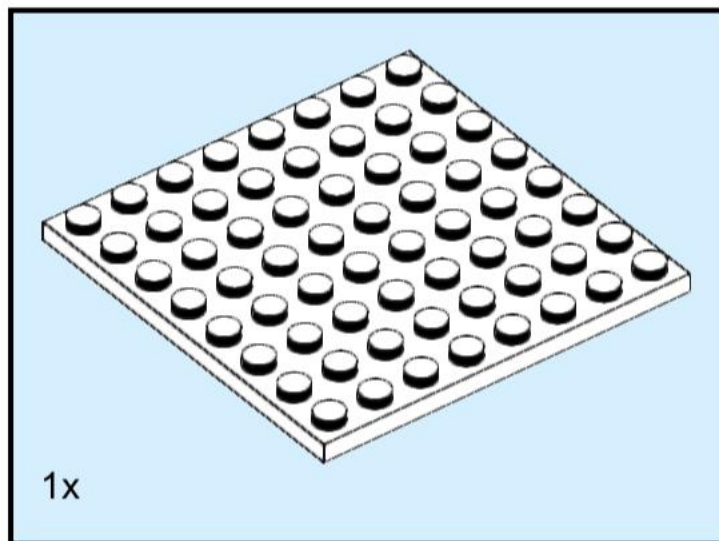

Ez egy két szintes puzzle box, aminek első szintje csak fehérből, második szintje csak pirosból áll. Ha nincs elég LEGO alkatrészed, hogy az egészet ilyen színekből építsd meg, a belsejébe, ahol nem látszik, tehetsz más színeket is, vagy csináld az egészet mind különböző színekből.

Ha meg szeretnéd nézni a LEGO elemek listáját, görgess az építési útmutató végére!

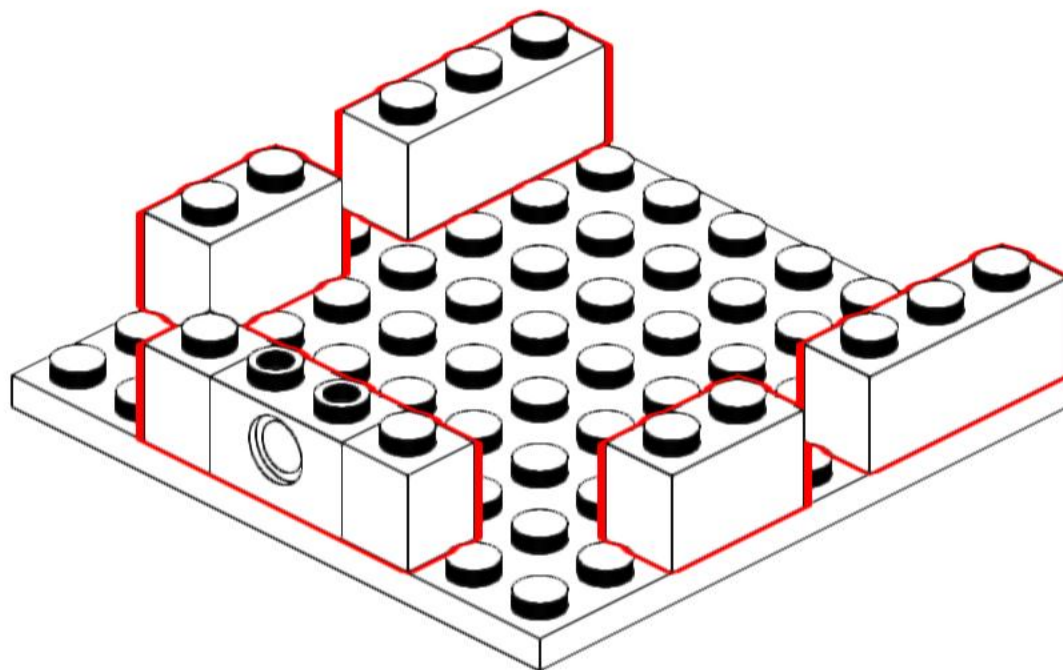

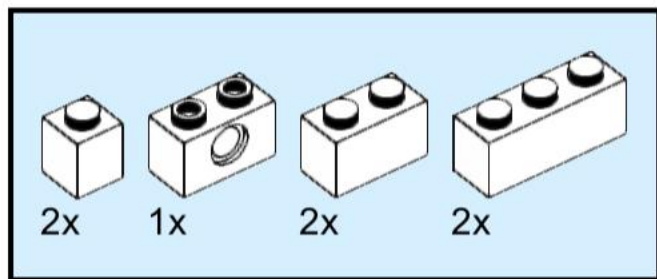

A puzzle box megfejtéseinek lépéseihez nézd meg a weboldalunkon található videót!

Jó építést és sok örömet kíván a MA-ELK
